NEBRASKA DENTAL ASSOCIATION
148th ANNUAL SESSION

Facing Change
Embracing Opportunity

REGISTRATION PACKET
APRIL 21-22, 2016 • CORNHUSKER MARRIOTT, LINCOLN
“Facing Change, Embracing Opportunity” is the theme of the 148th Annual Session of the Nebraska Dental Association. With our proud profession of dentistry facing times of change and transition, I am so appreciative that so many of you have cleared your busy calendars to attend this year’s meeting. It is encouraging to see other invaluable members of the dental team at this year’s meeting. Therefore, I want to extend a warm welcome to the dental hygienists, dental assistants, office staff, and I would be remiss if I didn’t welcome all the spouses and family members that are with us as well. With the entire dental team in mind, Drs. Brian Nový and Gregory Gillespie are this year’s annual session continuing education speakers. I trust that the entire dental team will find their presentations to be laden with useful information, enabling the dental team to provide the very best in oral health care to our patients.

Each annual session is dependent upon the combined efforts of many individuals, but I must give a shout out to Jody Cameron and David O’Doherty. They truly make this meeting happen, THANKS! The NDA is also very appreciative of the continued support of our exhibitors and corporate sponsors. For those that still are not convinced that dentistry is changing, visit the exhibits. The exhibit floor is a yearly reminder of my need to stay informed and to keep current, so seize the opportunity by visiting the exhibits, and while on the exhibit floor, please thank them for their commitment to the NDA by their participation at this year’s annual session.

We are honored to have with us officers of the 10th District, representing the states of Minnesota, Iowa, and North and South Dakota. Please give them a warm Nebraska welcome. Preceding each annual session, the Board of Trustees and the House of Delegates convene to do the work of the association. That was the case again this year. Please extend a word of appreciation to the NDA officers, your district’s trustee and delegates for their ongoing commitment to the NDA. I appreciate all of you, you know who you are!

Finally, at the conclusion of Friday’s continuing education program, please join the Vogt family for “La Fiesta 2016”, which translated means, “The Party.” My hope would be that no further explanation is necessary! During La Fiesta 2016 we will have a special time set aside when we will be honoring our colleagues and friends for their contributions to our proud profession.

Thanks for being here, thanks for the privilege, it has been an honor!

CONTINUING DENTAL EDUCATION:

Academy of General Dentistry
The NDA is designated as an approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by the AGD for Fellowship/Mastership membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. Visit the NE AGD booth to submit continuing education hours.

CE Verification
The Board of Dentistry and HHS no longer pre-approve CE. The individual licensee is responsible for attending acceptable CE so that if they were audited after a renewal period they could provide proof that they attended acceptable CE. The NDA has used its best judgment based on the criteria of acceptable continuing education listed in the regulations and have listed the number of hours an individual would be attending for a particular NDA CE. Each licensee is responsible for keeping brochures of CE courses so that if they are audited they can provide the CE Committee and the Board with an explanation as to how that course relates to the practice of dentistry. CE verification slips will be available at the conclusion of the session. Please do not ask to receive your slips early.

Course Disclaimer
The NDA makes every effort to present high caliber speakers in their respective areas of expertise. Speaker presentations in no way imply endorsement of any product, technique, or service presented. The NDA specifically disclaims responsibility for any materials presented. Speakers may be subject to change due to circumstances beyond our control.
Session 1
Friday, April 22, 2016 | 8:30 a.m. to 4:00 p.m.

Dr. Gregory Gillespie
“Direct and Indirect Restorative Update: What Should I Be Using Today?”

Today we have more options than ever for direct and indirect restorations. How do we choose the proper material for each situation? What advantages do some have over others? Having a clear understanding of ceramic systems, bonding agents, and composite materials will help you feel confident in any restorative procedure. Dr. Gillespie will address the heated topics of universal bonding agents, bulk fill composites, full contour zirconia vs e.Max ceramics, and proper luting agents.

Learning Objectives:
- Understand the impact of universal bonding agent systems on indirect and direct dentistry
- Clarify all ceramic systems including E. Max, Layered and Full contour Zirconia, and their indications
- Understand proper use of all cements including RMGI’s, Self-Adhesive Resins, Universal Cementation Systems, and Etch and Rinse Resins
- Discuss the advantages and disadvantages of bulk fill composites
- Understand when to utilize cement or screw retained implant restorations

Dr. Gillespie received his dental degree from the University of Washington School of Dentistry and maintains a full time practice in Vancouver, WA focusing on general dentistry with an emphasis on implant dentistry. His vision of comprehensive dentistry focuses on effective treatment planning and utilizing the best dental materials available. Dr. Gillespie lectures nationally and is associated with Catapult. As a member of this select group of clinicians, he is involved in ongoing evaluations of the latest materials and techniques in dentistry.
Let's face it, the idea of sitting through a course on dental caries or caries risk assessment isn’t appealing (in fact it sounds downright boring). However, the science of clinical cariology is expanding at an astonishing rate and this is one subject you’ll be glad you understand. Don’t let your office be the only one saying, “Brush better, don’t eat sweets, and here’s some fluoride?”

At the end of this course, participants should be able to:

1. Intervene medically in the caries process
2. Control caries with focused therapeutics
3. Implement an effective therapeutic protocol
4. Prolong the life of restorations in all patients

Dr. Nový is the Director of Practice Improvement at the DentaQuest Institute, and an adjunct associate professor of restorative dentistry. He served on the ADA Council of Scientific Affairs 2010-2014 and served as chair of the CAMBRA Coalition through 2015. The California Dental Association Foundation presented him with the Dugoni Award for -"Outstanding contributions to dental education,” and in 2009, the American Dental Association awarded Dr. Nový and his office the title, "Adult Preventive Care Practice of the Year.”
The Exhibit Hall will be open on **Friday, April 22, 2016** from **8:00 a.m. to 5:30 p.m.** The NDA Annual Session is the perfect time for you to shop for your office! As always, there will be some new companies, products, and techniques being represented, as well as some old friends with new ideas. Please patronize our exhibitors and thank them for their support of our meeting.

Join us in the exhibit hall on **Thursday, April 21, 2016**, from **5:00 p.m. to 7:00 p.m.** for the Exhibitor Welcome Party. We would encourage our members to come and take advantage of some one-on-one time with our exhibitors. **Thanks to a generous sponsorship from American National Bank and Henry Schein, complimentary appetizers and beverages will be provided.**

CE slips representing one (1) hour of CE will be available for visiting the Exhibit Hall. In 2013, the State of Nebraska approved one hour of CE credit for visiting the exhibit hall. Because the State is no longer approving CE hours, we can only assume that the same credit would be approved if you were audited.
