To make reservations, please call the hotel directly at 1-866-436-1950 and mention the West District Dental Society. The block will be held until July 28th so make your reservations now. The room rate is $85 + tax.

EXHIBITORS

Several exhibitors will be on site on Friday, August 18, 2017, beginning at 8:00 a.m.

SPEAKER – J. WILLIAM ROBBINS, DDS. M.A.

Co-sponsored by 3M Oral Care

J. William Robbins, DDS. MA, maintains a full-time private practice and is Adjunct Clinical Professor in the Department of Comprehensive Dentistry at the University of Texas Health Science Center at San Antonio Dental School. He graduated from the University of Tennessee Dental School in 1973.
He completed a rotating internship at the Veterans Administration Hospital in Leavenworth, Kansas, and a two year general practice residency at the VA Hospital in San Diego, California. Dr. Robbins has published over 80 articles, abstracts, and chapters on a wide range of dental subjects and has lectured in the United States, Canada, Mexico, South America, Europe, Middle East and Africa. He co-authored a textbook, “Fundamentals of Operative Dentistry - A Contemporary Approach, which is published by Quintessence, and is in its 4th edition. He recently co-authored a new textbook, "Global Diagnosis - A New Vision of Dental Diagnosis and Treatment Planning", which is also published by Quintessence. He has won several awards including the Presidential Teaching Award at the University of Texas Health Science Center, the 2002 Texas Dentist of the Year Award, the 2003 Honorary Thaddeus V. Weclew Fellowship Award from the Academy of General Dentistry, the 2010 Saul Schluger Award given by the Seattle Study Club, the Southwest Academy of Restorative Dentistry 2015 President's Award, and the 2016 Academy of Operative Dentistry Award of Excellence. He is a diplomate of the American Board of General Dentistry and is past president of the American Board of General Dentistry, the Academy of Operative Dentistry, the Southwest Academy of Restorative Dentistry, and the American Academy of Restorative Dentistry.

PROGRAM – “Global Diagnosis - A New Vision of Dental Diagnosis and Treatment Planning”

With the increased emphasis on interdisciplinary treatment in recent years, the deficiencies associated with traditional methods of diagnosis and treatment planning have become more evident and problematic. Historically, the treatment plan was primarily dictated by information provided by study casts which were mounted on a sophisticated articulator in centric relation. At that time in history, the primary tools available for treating the complex restorative patient were functional crown lengthening surgery and increasing the vertical dimension of occlusion. The treatment plan was simply based on restorative space, anterior tooth coupling, and resistance and retention form of the final preparations, with no focus on placing the teeth in the correct position in the face. Practitioners did not have access to advanced periodontal, orthodontic, orthognathic surgery and plastic surgery tools that are currently available. With the advent and common usage of these new treatment modalities, the historical method of diagnosis and treatment planning is no longer adequately serving our profession. It is the purpose of this course to provide a systematic approach to diagnosis and treatment planning the complex interdisciplinary dental patient with a common language that may be used by the orthodontist, periodontist, and oral and maxillofacial surgeon, as well as the restorative dentist. The four Global Diagnoses which dictate all interdisciplinary treatment planning will be defined. A set of questions will then be presented which will aid the interdisciplinary team in the diagnosis and treatment planning of the complex dental patient.

- Global Diagnosis
- Communication with specialists
- Principles of Esthetics
- A systematic approach to facial, esthetic, and functional diagnoses.

- Global Diagnoses
  1. Short or Hyperactive Maxillary Lip
  2. Altered Passive Eruption
  3. Dentoalveolar Extrusion
4. Skeletal Deficiency
5. Combination

Learning Objectives – Upon completion of this course, the participant will be able to:

- Describe four Global Diagnoses
- Describe the "5 CORE Questions" with their corresponding treatment options
- Complete a Global diagnosis form which will lead to a comprehensive diagnosis
- Communicate with the interdisciplinary team

CONTINUING EDUCATION CREDIT - 6 hours

The Board of Dentistry and HHS no longer pre-approves CE based on the new regulations. The individual licensee is responsible for attending acceptable CE so that if they were audited they could provide proof that they attended acceptable CE. The West District Dental Society has used its best judgment based on the criteria of acceptable continuing education listed in the regulations and have determined that this program would be eligible for 6 hours of CE. Each licensee is responsible for keeping brochures and/or CE slips of CE courses to provide proof of attendance.

EXPERIENCE THE SOLAR ECLIPSE

Many of you may be aware of the "complete solar eclipse" happening on August 21, 2017 of which Alliance, Nebraska is directly in the path (Scottsbluff partially). Come hear an outstanding speaker, spend some time in beautiful Western Nebraska, and then experience a “once in a lifetime event”. For more information visit these websites:  http://carhengesolareclipse2017.com and http://www.eclipse2017.org/eclipse2017_main.htm.
