5. At the close of the show, the supplier or the exhibitor must remove all exhibit materials and trash from all public spaces.
6. The supplier will work with the LVCC to outline the exact days and times for both load-in and load-out. The schedule of times and numbers of vehicles used for load-in and load-out, productions or entertainment events must be submitted to the LVCC a minimum of ten days prior to the event.

7. A LVCC representative must be assigned to monitor load-in and load-out.

No sawing or cutting of materials with any power tools is permitted.

9. The supplier is responsible for traffic control of all vehicles scheduled by them for load-in and load-out. The use of packing tape on floors is prohibited. No painting of any kind is allowed on the LVCC property.

15. Exhibits using food, beverage, ink, chemicals or other liquids must have visqueen over the carpets. The exhibitor must cover the entire booth area with a carpet of their choice and at their expense. Proper removal of accumulated liquid waste is required twice daily.

16. Several conditions apply to installation for the most effective move-in possible. First, total dock access must be possible for the entire installation.
