Frequently Asked Questions: HHS Provider Relief Fund

Do I have to accept Medicare, Medicaid, or certain insurance networks and their fees if I accept this HHS relief payment?

No. There is no correlation between accepting payments from HHS and being forced to accept or enroll into Medicare, Medicaid, or insurance.

What expenses or lost revenues are considered eligible for reimbursement from the Provider Relief Fund?

The term “healthcare related expenses attributable to coronavirus” is a broad term that may cover a range of items and services purchased to prevent, prepare for, and respond to coronavirus, including:

• Supplies & equipment to provide healthcare services for possible or actual COVID-19 patients;
• Workforce training;
• Developing and staffing emergency operation centers; and
• Acquiring additional resources, including facilities, equipment, supplies, healthcare practices, staffing, and technology to expand or preserve care delivery.

The term “lost revenues that are attributable to coronavirus” means any revenue that you as a healthcare provider lost due to coronavirus, these could include:

• Employee or contractor payroll;
• Employee health insurance;
• Rent or mortgage payments;
• Equipment lease payments; and
• Electronic health record licensing fees.

Note: Payments cannot be used to “reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse, such as PPP loans.

When is the deadline for dentists to apply?
August 3, 2020. Dentists (whether a Medicaid/CHIP provider or not) should both apply for funding through the Enhanced Provider Relief Fund (PRF) Payment Portal.

I’ve seen one of the terms was on balance billing (surprise billing), does this apply to my dental practice?

The ADA worked with HHS to set the record straight and they’ve now clarified that:

• Dental providers who are not caring for patients with presumptive or actual cases of COVID-19 are not subject to balance billing prohibitions. ‘Presumptive’ is defined as a case where a patient's medical record documentation supports a diagnosis of COVID-19.
• HHS thinks few, if any, dentists are performing dental work on active COVID patients. So, there should be very few dental patients covered by this bar.
• Qualifying for payment from the PRF has to do with past treatment earlier this year when HHS broadly viewed every patient as a possible case of COVID-19. Balance billing prohibitions apply only to treating current active COVID-19 patients with a medical record that supports a diagnosis of COVID-19.

What are the reporting requirements going to be?

• HHS released a notice stating that detailed instructions regarding future reports will be released by August 17 and will apply to payments exceeding $10,000 in the aggregate from the PRF.
Frequently Asked Questions: HHS Provider Relief Fund

- The reporting system will become available to recipients for reporting on October 1, 2020. The reports will allow providers to demonstrate compliance with the terms and conditions, including use of funds for allowable purposes.
- Recipients of PRF payments do not need to submit a separate quarterly report to HHS or the Pandemic Response Accountability Committee.
- There are plans by HHS to provide recipients with Question and Answer (Q&A) Sessions via webinar in advance of the submission deadline.

I received a small payment from HHS months ago related to Medicare, why can’t I apply now?

If a healthcare provider was eligible for the first phase of the General Distribution payment, even if they rejected the payment, they are not eligible for a Medicaid, CHIP, or Dental Providers Distribution payment. However, providers that are not eligible for this distribution may be eligible for future allocations of the Provider Relief Fund. The ADA has been advocating for this eligibility restriction to be lifted and will remain engaged on the issue.

Can a provider choose to have its payment data omitted from the Provider Relief Fund public list on the CDC’s website?

No. To ensure transparency, HHS will publish the names of payment recipients and the amounts accepted and attested to by the payment recipient.

HHS has posted a public list of providers and their payments once they attest to receiving the money and agree to the Terms and Conditions. All providers that received a payment from the Provider Relief Fund and retain that payment for at least 90 days without rejecting the funds are deemed to have accepted the Terms and Conditions. Providers that affirmatively attest through the Payment Attestation Portal or that retain the funds past 90 days, but do not attest, will be included in the public release of providers and payments. The list includes current total amounts attested to by providers from each of the Provider Relief Fund distributions, including the General Distribution and Targeted Distributions.

Are 1099/employee dentists eligible for Provider Relief Funding?

Applicants must have a TIN as the first step in the validation process, and if applying as an individual, they must have gross receipts or sales from providing patient care reported on Form 1040.

Do my SBA loans like EIDL or PPP factor into Provider Relief Funds?

No. There is no direct ban under the CARES Act on accepting a payment from the Provider Relief Fund and other sources, so long as the payment from the Provider Relief Fund is used only for permissible purposes and the recipient complies with the Terms and Conditions. By attesting to the Terms and Conditions, the recipient certifies that it will not use the payment to reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse.

I made a mistake on my application, received a smaller amount than I should have, where can I appeal or dispute?

No, there is no ability to appeal or dispute your payment. Please be sure to review your application thoroughly for accuracy before submitting.
